

20 kg

Seaperia

THE SUPERIOR SEAWEED

SEAWEED SOLUBLE GRANULES

Super Concentrated *Ascophyllum nodosum*

CROPS – USE HALF TO ONE KG PER HECTARE
in sufficient water to cover the crop well.
Put the required amount in a dry bucket then fill
using the water to stir the solution. Half fill
spray tank with water then gradually add
the seaweed solution.

Spray as a fine mist until leaves are dripping –
early morning or late evening is best.
Avoid applying before rain or irrigation – let dry
on the leaf.

Livestock – add to drinking water 1 to 2 grams
per beast per day.

Poultry – half teaspoon per 10 litres of
drinking water.

Spray worm farms and compost, spray
over mulched cover crops, water in
transplants.

Keep very dry and always close bag tightly
immediately after use. Store in a cool, dry
place away from direct sunlight. Avoid spills
on floor surfaces as the product becomes
slippery when wet and may create a hazard.
